1. Introduction & Getting Started

What is SAEC ERP?

SAEC ERP is a comprehensive enterprise resource planning system designed for infrastructure consultancy firms. It manages projects, finances, contracts, vehicles, assets, and daily operations — all in one secure, AI-powered platform.

12+ Modules

Fund Flow, Due Bills, WIP, Contractors, Tenders, Payments, Vehicles, Assets, In-Out Register, TADA Bills, Tasks, Reports

AI-Powered

AI Executive Summary, AI Chat Assistant for instant answers about your data

Bulk Import

Upload CSV or Excel files to import data in bulk across all modules

Role-Based Access

Admin, Manager, Staff, and Auditor roles with granular permissions

SAEC ERP — Key Features at a Glance

2. Login & Authentication

How to Log In

- 1 Open your browser and go to **http://43.242.227.51:8080/login**
- 2 Enter your **Email Address** (e.g., admin@saec.com)
- 3 Enter your **Password**
- 4 Click the **"Sign in"** button
- 5 You will be redirected to the Dashboard

Tip: If you see "Invalid email or password", double-check your credentials. Contact your administrator if you need an account.

3. Dashboard Overview

Dashboard — Your Command Center

The Dashboard is the first page you see after login. It provides a bird's-eye view of your entire organization.

Financial Highlights

Total projects, active projects, total fees, and fee received — at a glance

Quick Access Tiles

Click any module tile to jump directly to that section

AI Executive Summary

AI-generated summary of critical metrics, risks, and priorities

Priority Actions

Overdue payments, pending replies, and urgent tasks highlighted

Financial

4. Fund Flow Module

Track Project Finances

The Fund Flow module tracks the financial health of each project — from costs incurred to fees received.

Key Fields

Field	Description	Example
Project	Linked project name	UGD Pipeline Phase 1
Misc Expenses	Miscellaneous project costs	₹15,000
Staff Expenses	Staff-related costs	₹2,50,000
Total Project Cost	Sum of all costs	₹12,34,567
Completed Work Amount	Value of work completed	₹8,00,000
Fee Received	Consultancy fees collected	₹5,00,000

Tip: Use the **Bulk Import** button to upload fund flow data for multiple projects at once via CSV or Excel.

5. Due Bills Module

Billing Lifecycle & Collections

Track consultancy bills from generation to payment receipt. Monitor outstanding amounts and bill status.

Bill Statuses

Status	Meaning
PENDING	Bill generated, not yet paid
PARTIAL	Partially paid
PAID	Fully paid
ON_HOLD	Payment paused
CANCELLED	Bill cancelled

Filter & Search

Filter by project, region, client, status, or scheme

Export & Import

Export bills to CSV/Excel or import in bulk

6. Work in Progress (WIP)

Track Active Work Orders

Monitor work orders, RA bills, security deposits, and project completion progress.

Key Dates

LOI receipt, agreement, work order, stipulated & target completion dates

RA Bills

Track up to 4 RA bills with amounts, dates, fees, and expenses

Security Deposit

Track deposit amount, status, and return date

Coordinators

Assign HO and RO coordinators for each project

7. Contractors Module

Vendor Management

Manage contractor profiles, work specifications, contract amounts, and billing details.

Contractor Details

Name, contact person, phone, email, address

Work Specs

Work name, type (Building, Road, UGD, etc.), service type

Financials

Contract amount, Schedule B amount, final progress

Documents

Work order copy, drawings, completion certificate

8. Tender Management

Bids & Proposals Tracking

Track tender opportunities from preparation to submission to evaluation — including fees, EMD, and price comparison.

Tender Statuses

Status	Meaning
UNDER_PREPARATION	Tender being prepared
SUBMITTED	Tender submitted
UNDER_EVALUATION	Under client evaluation
WON	Tender won
LOST	Tender lost
WITHDRAWN	Withdrawn from bidding
CANCELLED	Tender cancelled

 Under Preparation

 Submitted

 Under Evaluation

 Won

 Lost

Tender Status Badges

9. Payment Schedules

Upcoming Payments Tracker

Track scheduled payments like GST, TDS, Excise, and Vehicle Loan EMIs with due dates and status.

Categories

Category	Use
EXCISE	Excise duty payments
GST	Goods & Services Tax
TDS	Tax Deducted at Source
VEHICLE_LOAN	Vehicle loan EMIs

10. Vehicle Log Book

Vehicle Tracking & Journey Logs

Manage vehicle records, track journeys, fuel expenses, and document renewals (RC, Insurance, PUC).

Vehicle Records

Registration, make, model, year, status

Journey Logs

Date, from/to, start/end km, total km, expenses

Document Tracking

RC, Insurance, PUC expiry dates with alerts

Approval System

Journey logs: Pending → Approved/Rejected

11. Property & Assets

Equipment & Property Management

Track organizational assets — from computers to field equipment — with assignment and warranty tracking.

Asset Details

Item code, name, category, make, model, year

Assignment

Assign to person or office, track quantity

Security

Security codes and warranty document paths

Status

Available, Assigned, Under Maintenance, Disposed

12. In-Out Register

Document Tracking System

Track inward/outward documents, client correspondence, staff CC assignments, and replies.

Document Entry

Document date, received date, reference number

Client Linking

Link documents to specific clients

Action Staff

Assign staff for action suggested

Reply Tracking

Reply date and reference number

13. TADA Bills

Travel & Daily Allowance Claims

Submit and track travel allowance claims with multi-level approval workflow.

Approval Workflow

TADA Bill Approval Flow

Expense Types

Travel, accommodation, food, local conveyance, other

Advance & Balance

Track advance given, amount adjusted, balance due

14. Task Management

Team Assignments & Tracking

Create tasks, assign to staff, set priorities and due dates, and track completion.

Task Details

Title, description, status, priority

Assignment

Assign to staff, link to project

Due Dates

Set deadlines, track overdue tasks

Rework

Track rework count and reasons

Task Priorities

Priority	Color	Use
CRITICAL	 Red	Urgent — needs immediate attention
HIGH	 Orange	Important — address soon
MEDIUM	 Yellow	Normal priority
LOW	 Green	Can wait — low urgency

15. Reports & Analytics

Analytics & Data Export

Generate reports across all modules. Export data in CSV, JSON, or Excel formats for external analysis.

Module Reports

Fund Flow, Due Bills, WIP, Tenders, Payments, Vehicles, Assets, TADA, Tasks

Export Formats

CSV, JSON, XLSX (Excel)

16. Settings & Configuration

System Configuration

Access settings from the sidebar. Available tabs depend on your role.

Tab	Function	Who Can Access
Export / Import	Export or import data across modules	Admin Manager Auditor
Notifications	Configure alert rules and thresholds	All roles
Audit Log	View system activity logs	Admin Auditor
Users	Create and manage user accounts	Admin only
Rights	Configure role permissions and AI access	All roles

17. Bulk Import (All Modules)

Upload Data in Bulk

Every module has a **"Bulk Import"** button in the top-right corner. Use it to upload data for multiple records at once.

How to Use Bulk Import

- 1 Go to any module page (e.g., Contractors)
- 2 Click the **"Bulk Import"** button
- 3 Download a **CSV** or **Excel** template — this shows the correct column headers
- 4 Fill in your data in the template (using Excel or Google Sheets)
- 5 Save the file as CSV or XLSX
- 6 Upload the file using the file picker, or paste CSV data directly
- 7 Click **"Import"** — records will be created in the database
- 8 Review success/error messages — fix any errors and re-import

 **Relation Fields:** For fields like "Project" or "Staff", just enter the **name** (e.g., "GUDM Kutiyana UGD DPR"). The system will automatically look up the correct ID.

 **Important:** Make sure related records (Projects, Staff, Clients) exist before importing modules that reference them.

18. AI Assistant & Executive Summary

AI-Powered Intelligence

SAEC ERP includes two AI features to help you make faster, better decisions.

AI Executive Summary (Dashboard)

Auto-Generated

Click "Generate" on the dashboard to get an AI summary of your key metrics

Risk Alerts

Critical, High, Medium, and Low severity badges highlight priorities

AI Chat Assistant

Floating Button

Click the "Ask AI" button (bottom-right corner) on any page

Ask Anything

Ask about projects, bills, tasks, payments, and more — in plain English

Dashboard content...

Ask AI

AI Assistant Floating Button Location

Example Questions: "How many overdue payments do we have?", "What's the total fee received across all projects?", "Which tasks are overdue?"

19. User Roles & Permissions

Four Role Types

Role	Badge	Description
Admin	Admin	Full system access — all modules, settings, user management, audit logs, role permissions
Manager	Manager	Most modules, export/import, notifications, user rights configuration
Staff	Staff	Operational modules, notifications, user rights (no export/import, no audit log)
Auditor	Auditor	Read-only access, export/import, audit logs, notifications
